Raise the Bar with LearnSafe V.10

LearnSafe Monitors - Content Filters Block

LearnSafe™
See the Warning Signs. Save Lives.

LearnSafe is the premier monitoring solution trained to detect vulnerable behavior occurring on school computers. Unlike a content filter, LearnSafe supervises and reports when inappropriate activity occurs from any online or offline application. School leaders are furnished with easy to understand behavior reports to more accurately intercede and address critical behavior issues in a timely manner.

Available on

chromebook · Windows · Mac OS
